### 6. THE SURFING CRITERIA

6.1 A surfer must perform radical controlled manoeuvres in the most critical sections of a wave with power, speed and flow:

6.1.1 **Radical Controlled Manoeuvres** - This is by far the MOST IMPORTANT aspect. Major manoeuvres constitute change of direction of the board on the wave (not the surfer on the board). Such manoeuvres include re-entries, cut backs, floaters, tube rides, etc and Innovative / Progressive manoeuvres include aerials. How radical each manoeuvre is, followed by the amount of control and

commitment put into each of them, will determine how high they will score - POWER, SPEED & FLOW.

**6.1.2 Most Critical Section** - This part of the Criteria describes the positions on the wave that manoeuvres should be performed on to score the maximum points. The critical section of the wave is the 'pocket', closest to the curl. The degree of commitment and risk involved in performing a manoeuvre close to the curl is the reason that they score higher and generally the most critical section of a wave is the first section 'out the back'.

**6.1.3 WhiteWater Heats** - Relating the above to WhiteWater Competitions is harder and so for scoring these heats judges need to look for the same principles but scaled down. In other words, a good take off with the surfer getting straight to his or her feet followed by attempts to change direction and looking for any reform opportunities should be considered as adhering to the criteria whereas simply riding the WhiteWater straight to shore would attract lower scores.

6.2 Innovative and progressive surfing, as well as a combination and variety of repertoire (of major manoeuvres), will be taken into consideration when rewarding points for a surfer's performance.

6.3 The surfer who executes the criteria above, exhibiting the maximum degree of difficulty and commitment on the waves SHALL MAXIMISE HIS / HER SCORING POTENTIAL. COULD DO NO MORE = 10!

## **7. JUDGING ASSISTANCE**

7.1 Parents of members are requested to volunteer to help with the judging of the competitions.

7.2 Parents and Competitors are to stay out of and away from the judging area if their children are in that particular heat. This is so that no pressure is deemed to have been brought on the judges.

7.3 Parents are not to judge any heat in which their child is competing.
